Dear hyperthermia friends,

It is the pleasure of the European Society for Hyperthermic Oncology to invite you to participate in the 13th International Congress of Hyperthermic Oncology (ICHO), which will be held 6–9 October 2021, in the Engels Conference Center B.V. Rotterdam, The Netherlands.

The ICHO-2021 congress is organized every four years and is the combined international meeting of the Asian Society of Hyperthermic Oncology, the Society of Thermal Medicine (USA) and the European Society for Hyperthermic Oncology.

The ICHO-2021 meeting is organized by a multi-disciplinary team representing all active hyperthermia groups of the Netherlands. Rotterdam grew from a humble fishing village to one of the world largest ports and is the second city of the Netherlands. Besides being a center of world trade it is also a dynamic city, internationally renowned for their innovative drive and unpolished charm. Whether it’s the constantly changing skyline with its bold architecture, our port, which is the smartest in the world, or the can-do mentality of our residents. Rotterdam is a city with a distinct character, energetic and always in motion. A city of forerunners, pioneers and people with the courage and will to drive change. Hence, an ideal place for our 13th ICHO.

Gerard van Rhoon Willemijn Kolff Timo ten Hagen

Hosting Societies
Asian Society of Hyperthermic Oncology (ASHO)
Society for Thermal Medicine (STM)
European Society for Hyperthermic Oncology (ESHO)

Congress Chairs
• Prof. Dr. Gerard C. van Rhoon, physicist
• Willemijn M.W. Kolff, oncologist
• Dr. Timo L.M. ten Hagen, biologist
